

MID TERM CONSULTATION

Preparation flow

- Look through the theory, that we have passed.
- Watch at quizzes on every passed topic, those questions are very alike to what you will get on midterm test.
- Repeat (definition, role, purpose, benefits)
- Look through questions from learning materials
- Look through questions from workshop quizzes

TOPICS

- SOLID
- Grasp (Information expert, Encapsulation)
- Low coupling, High cohesion
- DI and IoC
- MVC (layers and dataflow)
- YAGNI & KISS & DRY
- Code smells symptoms
- Benefits of refactoring
- Basic Antipatterns (first five, that we have discussed during the previous workshop)

Questions may sound like:

- how would the principle improve...
- what are the benefits of the principle...
- how the principle would influence on app...
- choose which of the following describes the principle...
- choose which of the following are the benefits of the principle...
- what is the main benefit of the principle...
- choose common part of two principles...
- what is the most important goal of the principle...
- what of the following violates the principle...
- what is true/false about the principle...

Passed materials can be found here:

Midterm Assessment

!!! Taking the exam is allowed at the appointed time only !!!

The assessment is held using the Examinator tool. Please install Safe Browser as per instructions provided to start your exam.

Total exam duration: 45 min

Total numbers of tasks: 18

Tasks format: Multiple Choice, Multiple Select

Time (in general) to solve problem of each type: 1 - 3 min

Points for each type of task: 1 - 2

The total number of points for the exam: 25

Assessment's Rules and Requirements

So, you're going to take an online exam at ITPU.

First, be sure you to have:

1. **Windows** laptop or desktop with **camera***,
2. **Quiet place** to take exam alone,
3. Stable **internet** connection,
4. **Microsoft Authenticator App** installed on your phone,
5. **Passport** or ID card next to you.

** if you cannot provide a camera for yourself and need to come to the University to take the exam please fill out the form:*

By default, the online exam will be scheduled for you.

Second, open the exam in the **Safe Exam Browser**:

1. Download the browser configuration file. **The link to the config file is available in each Examiner Exam Slot*. Please download the new browser configuration file each time you take a new test and use the new downloaded file to access the appropriate test.** IMPORTANT: Please follow steps 2-4 from the list below only if you have not yet installed SafeBrowser. If you have already downloaded SafeBrowser, proceed to step 5.
2. Go to Safe Exam Browser site,
3. Choose your operating system and download the Safe Exam Browser,
4. Install the Safe Exam Browser on your PC,
5. To open Examiner in the Safe Exam Browser, **execute browser configuration file** downloaded in step 1.

Now, you're ready to start. It's the right time to look at the examination **timetable**: visit General Channel of your cohort in MS Teams (BSXX_All_Students).

- **Start time** – from this moment you will be able to start,
- **End time** – you must complete the exam before this moment. If you don't, your progress will not be safe. The exam grade, in that case, will be 0.

Please note that you need to finish the test in Examiner **before end time shown in Learning Path** otherwise your result will not be accepted and will be set to zero in Learning Path even if you have finished the test with positive result after the required End time. Please note that timer in Examiner **does not** take into account the required End time so control this yourself.

Emergency contact (tech support) during the exam is the channel “**Exam Support**” in the BSXX_All_Students team in MS Teams.

When you inform tech support about the problems you face, please attach the **screenshots** to confirm and explain.

The exam will be **recorded**. So please make sure:

1. Your camera **lens** is not covered,
2. You have proper **lighting** in the area,
3. The camera has a proper **view angle**,
4. Your **face** is clearly **visible** in the camera during all the exam time,
5. You **do NOT** use any **additional devices or hint materials** while taking the exam,
- 6 **No other person** is visible to the camera

During the exam follow the instructions:

1. In the beginning of exam, **show your passport or ID card** to the camera for **at least 5 seconds**,
2. Be sure NOT to:
 - Take photo or video of the screen while taking the exam,
 - Speak while taking the exam,
 - Turn off the camera,
 - Use options: copy, paste, cut, drag,
 - Leave full-screen mode,
 - Click Context menu (right mouse button),
 - Open Dev tool (F12, Ctrl+Shift+I),
 - Leave page.

IMPORTANT: any violation of the instructions may result in **zeroing out** your exam grade and **disciplinary sanctions** (reprimand or expulsion).
